

OMEGA PROTEIN, INC.

Action by Unanimous Written Consent of
the Board of Directors

April 5, 2013

The undersigned, being all the Directors of Omega Protein, Inc., hereby certify and confirm that we have adopted the following resolutions pursuant to the requirements of Virginia law on the date first written above:

WHEREAS, Omega Protein, Inc. has been the subject of an investigation being conducted by the Office of the United States Attorney for the Eastern District of Virginia concerning allegations of potential violations of certain federal statutes, including the Clean Water Act, involving Omega Protein, Inc.'s fishing fleet based in Reedville, Virginia;

WHEREAS, Omega Protein, Inc. desires to resolve its potential liability in this investigation expeditiously and to work toward improving the environmental compliance of the vessels it owns and operates;

WHEREAS, counsel, working on behalf of Omega Protein, Inc., have entered into discussions with representatives of the Office of the United States Attorney for the Eastern District of Virginia and have concluded a plea agreement which is embodied in two separate documents, namely a Plea Agreement and a Statement of Facts attached hereto as Attachments A and B, respectively (hereinafter collectively referred to as "the Plea Documents");

WHEREAS, representatives of the Office of the United States Attorney for the Eastern District of Virginia have provided counsel and Omega Protein, Inc. with a copy of an Information formally stating the two charges to which Omega Protein, Inc. would plead guilty in connection with the Plea Agreement;

WHEREAS, the members of this Board of Directors have reviewed the contents of the Plea Documents and have concluded that it is in the best interests of Omega Protein, Inc. to accept the plea agreement offer that is set forth in the Plea Documents;

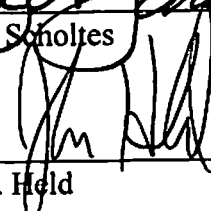

WHEREAS, Omega Protein, Inc. has engaged Mr. Gregory F. Linsin, Blank Rome LLP, and Mr. Chuck Rosenberg, Hogan Lovells, LLP, both attorneys at law in Washington, D.C., the United States of America, as legal counsel on this matter and anyone or both of them may be required to countersign the Plea Agreement and Statement of Facts between the United States Attorney's Office for the Eastern District of Virginia and Omega Protein, Inc. and any other related documents and or otherwise assist Omega Protein, Inc. in all relevant proceedings;

RESOLVED, that each of Bret Scholtes or John Held is hereby authorized, on behalf of Omega Protein, Inc., to: sign and enter into the referenced Plea Documents; appear in court on behalf of Omega Protein, Inc. and certify that Omega Protein, Inc. is authorized to enter

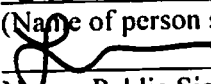

~~DRAFT 4/8/13~~

into and comply with all of the provisions of the Plea Agreement; to respond to questions from the Court regarding the business activities of Omega Protein, Inc.; to enter pleas of guilty to the two offenses charged in the Information; and take other actions necessary to effectuate the purposes of the Plea Agreement.

FURTHER RESOLVED, that each of Gregory F. Linsin and Chuck Rosenberg is hereby authorized on behalf of Omega Protein, Inc. to countersign and enter the Plea Agreement and any required Plea Documents and take all other actions to effectuate the purposes of the Plea Agreement.

Attachment A

IN THE UNITED STATES DISTRICT COURT FOR THE
EASTERN DISTRICT OF VIRGINIA
Norfolk Division

UNITED STATES OF AMERICA)	
)	CRIMINAL NO. 2:13cr
v.)	
)	
OMEGA PROTEIN, INC.)	
)	
Defendant.)	

PLEA AGREEMENT

Neil H. MacBride, United States Attorney for the Eastern District of Virginia, Joseph L. Kosky, Assistant United States Attorney, Olivia L. Norman, Assistant United States Attorney, and David Lastra, Special Assistant U.S. Attorney, along with the defendant, OMEGA PROTEIN, INC., represented by Gregory F. Linsin, Blank Rome LLP, and Chuck Rosenberg, Hogan Lovells, LLP, have entered into a plea agreement pursuant to Rule 11(c)(1)(C) of the Federal Rules of Criminal Procedure. The terms of the agreement are as follows:

1. Offense and Maximum Penalties:

The defendant agrees to waive indictment and plead guilty to a two count Criminal Information. Count One charges the defendant with the knowing discharge of pollutants on numerous separate and discrete occasions from a point source into waters of the United States without a permit, in violation of the Clean Water Act, 33 U.S.C. §§ 1311 and 1319(c)(2). Count Two charges the defendant with the knowing discharge of oil into waters of the United States in a quantity that may be harmful on numerous separate and discrete occasions, in violation of the Clean Water Act, 33 U.S.C. §§ 1321(b)(3) and 1319(c)(2).

The maximum penalties for the counts of conviction are: at least one but no more than five years of probation; a minimum fine of \$5,000 and a maximum fine of \$50,000 per day of violation, or \$500,000 per count, or an amount not greater than twice the gross gain or loss from the offense, and a \$400 special assessment per count.

2. Sentencing Guidelines

The United States and OMEGA PROTEIN agree that the 2011 United States Sentencing Commission Guidelines Manual will be used in this case. The United States and defendant OMEGA PROTEIN further agree that the provisions of Chapter 8 of the United States Sentencing Guidelines, which pertain to fines imposed on organizational defendants such as OMEGA PROTEIN do not apply to environmental offenses, including Clean Water Act violations. *See* Title 18, United States Code, Sections 3553 and 3572 and U.S.S.G. Sections 8C2.1, Background, and 8C2.10. The United States and OMEGA PROTEIN further agree that the remaining provisions of Chapter 8 of the Sentencing Guidelines, including community service and probation, apply to corporate defendant OMEGA PROTEIN. *See also*, 18 U.S.C. § 3563(b)(12) (statutory authority for community service as part of a criminal sentence).

3. The Sentence

Pursuant to Rule 11(c)(1)(C) of the Federal Rules of Criminal Procedure, the United States and the defendant agree to jointly recommend that the sentence to be imposed by the Court shall include the following components.

A. Imposition of a \$5,500,000.00 fine, authorized under the Alternative Fines Act, 18 U.S.C. § 3571(d), to be paid to the Clerk, United States District Court, within 60 days from the day of sentencing.

B. Placement of OMEGA PROTEIN on probation for three years on the terms and conditions contained in paragraph 4 below; and

C. During probation, OMEGA PROTEIN will initiate and complete community service projects, as described in paragraph 4, at a cost which shall amount to \$2,000,000.00. These projects shall be approved by the Court, and have a nexus and provide benefit to the Chesapeake Bay in Virginia.

D. Special Assessment -- Before sentencing in this case, the defendant agrees to pay a mandatory special assessment of four hundred dollars (\$400.00) per count, for a total of \$800.

The parties understand that these recommendations are not binding on the Court, until such time as the Court accepts the plea agreement, at which time they become binding on the Court, and that, if not accepted by the Court, this entire agreement shall be null and void at the option of either party. In this regard, the defendant hereby waives any defense to any charges which it might otherwise have based on any statute of limitation, pre-indictment delay, or the Speedy Trial Act for ninety (90) days following any nullification or voiding of the plea agreement, except to the extent that such defenses existed as of the date of the signing of the plea agreement.

The parties further understand that the agreed upon fine amount is authorized pursuant to subsection (d) of 18 U.S.C. § 3571, the Alternative Fines Act. Specifically, the parties agree that the total financial penalty to be imposed upon the defendant upon the acceptance of this agreement represents an amount not greater than twice the gross gain the defendant realized in commission of the above referenced offenses in paragraph 1.

4. Conditions of Probation

As part of its conditions of probation, OMEGA PROTEIN agrees to the following:

A. Community Service Projects

OMEGA PROTEIN agrees to pay \$2,000,000.00 to the National Fish and Wildlife Foundation within 60 days of sentencing to fund projects in the Eastern District of Virginia related to the protection of the environmental health of the Chesapeake Bay and its watershed and to the enhancement of environmental compliance within the watershed. OMEGA PROTEIN agrees not to claim this payment as a business expense for tax purposes. The government shall not retain control over the disposition or management of the funds or community service projects carried out under the terms of this plea agreement.

B. Environmental Compliance Program

OMEGA PROTEIN acknowledges that the United States Sentencing Guidelines requires the Court to determine whether a defendant has an effective program to detect and prevent violations of law pursuant to Chapter 8, Section 8B2.1, and Section 8C2.5(f). Accordingly, OMEGA PROTEIN will develop and implement an Environmental Management System (EMS) at all of its facilities which satisfies this requirement. OMEGA PROTEIN will submit an outline and schedule of its plan to develop and implement the EMS, including time lines and milestones with applicable dates, to the Court for review and approval at sentencing. The U.S. Probation Office – in consultation with the EPA and the United States Attorney's Office, if necessary – will have the right to periodically monitor the approved EMS during the probationary period and bring any violations to the attention of OMEGA PROTEIN for corrective action, and to the Court, if corrective actions are not taken timely. At a minimum, the program will consist of the following:

1. Developing an environmental compliance manual covering general areas of federal, state and local environmental regulations, including management of industrial wastewater and hazardous waste; regulatory agency notifications in case of spills, releases, emissions or discharges of pollutants into the environment; dealings with regulatory inspectors and personnel, and the importance of accuracy, timeliness and honesty in reporting to regulatory agencies all information required by the Clean Water Act and other federal and state environmental statutes, regulation, programs and permits.

2. OMEGA PROTEIN will assure that there is a system in place under which its employees are made aware they can report allegations of environmental noncompliance to the appropriate federal, state and local regulatory agency, without fear of retribution. *See* U.S.S.G. § 8B2.1 (b)(5)(C).

3. OMEGA PROTEIN will set up a system for providing systematic training to new employees and refresher training for other employees on federal, state and local environmental statutes and regulations.

5. Corporate Authorization

The defendant will provide to the Court and to the United States written evidence in the form of a notarized resolution of the Board of Directors with both notary and corporate seals, certifying that the defendant corporation is authorized to plead guilty to the charges set forth in the Information, and to enter into and comply with all provisions of this agreement. The resolution shall further certify that the persons representing the defendant corporation are authorized to take these actions and that all corporate formalities, including but not limited to, approval by the defendant's directors, required for such authorization, have been observed.

6. Organizational Changes

The defendant shall not, through a change of name, business reorganization, sale or purchase of assets, divestiture of assets, or any similar action, seek to avoid the obligations and conditions set forth in this plea agreement. This plea agreement, together with all of the obligations and terms hereof, shall inure to the benefit of and bind partners, assignees, successors-in-interest, or transferees of the defendant.

7. Factual Basis for the Plea

The defendant will plead guilty because the defendant is in fact guilty of the charged offenses. The defendant admits the facts set forth in the statement of facts filed with this plea agreement and agrees that those facts establish guilt of the offense charged beyond a reasonable doubt. The statement of facts, which is hereby incorporated into this plea agreement, constitutes a stipulation of facts for purposes of Section 1B1.2(a) of the Sentencing Guidelines.

8. Assistance and Advice of Counsel

The defendant is satisfied that the defendant's attorneys have rendered effective assistance. The defendant understands that by entering into this agreement, defendant surrenders certain rights as provided in this agreement. The defendant understands that the rights of criminal defendants include the following:

- a. the right to plead not guilty and to persist in that plea;
- b. the right to a jury trial;
- c. the right to be represented by counsel – and if necessary have the Court appoint counsel – at trial and at every other stage of the proceedings; and
- d. the right at trial to confront and cross-examine adverse witnesses, to be

protected from compelled self-incrimination, to testify and present evidence, and to compel the attendance of witnesses.

9. Role of the Court and the Probation Office

The parties agree that this agreement was negotiated and agreed upon pursuant to Federal Rule of Criminal Procedure 11(c)(1)(C). Should the Court refuse to accept this agreement for any reason, the entire agreement shall become null and void at the option of either party.

10. Waiver of Appeal

The defendant also understands that Title 18, United States Code, Section 3742 affords a defendant the right to appeal the sentence imposed. Nonetheless, the defendant knowingly waives the right to appeal the conviction and sentence imposed, except if the sentence imposed varies from that agreed upon above under Rule 11(c)(1)(C), in exchange for the concessions made by the United States in this plea agreement. This agreement does not affect the rights or obligations of the United States as set forth in Title 18, United States Code, Section 3742(b).

11. Immunity from Further Prosecution in this District

In return for the complete fulfillment by the defendant of its obligations under this agreement, the United States will not further criminally prosecute the defendant or its parent corporation or any affiliated corporations in the Eastern District of Virginia for the criminal conduct set forth in the Criminal Information, the Statement of Facts, or other violations of federal criminal law associated with the criminal conduct set forth in the Criminal Information and the Statement of Facts. If requested by defendant, the United States Attorney for the Eastern District of Virginia will notify any other prosecutor in any other jurisdiction of the facts and circumstances of this agreement and the cooperation of the defendant.

12. Breach of the Plea Agreement and Remedies

This agreement is effective when signed by the defendant, the defendant's attorneys, and an attorney for the United States. The defendant agrees to entry of this plea agreement at the date and time scheduled with the Court by the United States (in consultation with the defendant's attorneys). If the defendant withdraws from this agreement, or commits or attempts to commit any additional federal, state or local crimes, or intentionally gives materially false, incomplete, or misleading testimony or information, or otherwise violates any provision of this agreement, then:

- a. The United States will be released from its obligations under this agreement.

The defendant, however, may not withdraw the guilty plea entered pursuant to this agreement;

- b. The defendant will be subject to prosecution for any federal criminal violation, including, but not limited to, perjury and obstruction of justice, that is not time-barred by the applicable statute of limitations on the date this agreement is signed. Notwithstanding the subsequent expiration of the statute of limitations, in any such prosecution, the defendant agrees to waive any statute-of-limitations defense; and

- c. Any prosecution, including the prosecution that is the subject of this agreement, may be premised upon any information provided, or statements made, by the defendant, and all such information, statements, and leads derived therefrom may be used against the defendant. The defendant waives any right to claim that statements made before or after the date of this agreement, including the statement of facts accompanying this agreement or adopted by the defendant and any other statements made pursuant to this or any other agreement with the United States, should be excluded or suppressed under Fed. R. Evid.

410, Fed. R. Crim. P. 11(f), the Sentencing Guidelines or any other provision of the Constitution or federal law.

Any alleged breach of this agreement by either party shall be determined by the Court in an appropriate proceeding at which the defendant's disclosures and documentary evidence shall be admissible and at which the moving party shall be required to establish a breach of the plea agreement by a preponderance of the evidence. The proceeding established by this paragraph does not apply, however, to the decision of the United States whether to file a motion based on "substantial assistance" as that phrase is used in Rule 35(b) of the Federal Rules of Criminal Procedure and Section 5K1.1 of the Sentencing Guidelines and Policy Statements. The defendant agrees that the decision whether to file such a motion rests in the sole discretion of the United States.

13. Nature of the Agreement and Modifications

This written agreement constitutes the complete plea agreement between the United States, the defendant, and the defendant's counsel. The defendant and the defendant's counsel acknowledge that no threats, promises, or representations have been made, nor agreements reached, other than those set forth in writing in this plea agreement, to cause the defendant to plead guilty. Any modification of this plea agreement shall be valid only as set forth in writing in a supplemental or revised plea agreement signed by all parties.

Attachment B

IN THE UNITED STATES DISTRICT COURT FOR THE
EASTERN DISTRICT OF VIRGINIA

Norfolk Division

UNITED STATES OF AMERICA)	
)	
v.)	CRIMINAL NO. 2:13cr
)	
OMEGA PROTEIN, INC.,)	
)	
Defendant.)	

STATEMENT OF FACTS

If this matter had gone to trial, the United States would have proven Counts One and Two contained in the Criminal Information beyond a reasonable doubt, by proof of the following facts, among others:

I. Background

OMEGA PROTEIN, INC. (hereinafter "OMEGA PROTEIN" or "defendant") is incorporated in the Commonwealth of Virginia and is headquartered in Houston, Texas. OMEGA PROTEIN is a subsidiary of Omega Protein Corporation. OMEGA PROTEIN operates a fleet of menhaden fishing vessels out of Reedville, Virginia, in the Eastern District of Virginia, to support the delivery of health products to the animal, human, and plant nutrition industries, and the production of supplements that consist of heart healthy Omega-3 fish oil derived from menhaden fishing in the Atlantic Ocean. At all times relevant to the Information, OMEGA PROTEIN's Reedville fleet consisted of approximately 10 fishing vessels, most of which were built between the 1940s and the 1980s. The Reedville fleet includes the F/V JOHN S. DEMPSTER, JR. and the F/V SMITH ISLAND. These Reedville vessels sail, on average, more than 100 days per year. Vessels of this type routinely collect sea water in the lowest

compartments or bilges of the vessel. The bilge compartment beneath the main engine room of a vessel, which is known as the machinery space bilge, also collects oil residues as a result of leaks and drippage resulting from normal engine room operations.

Fishing vessels also carry water containing fish waste, as a result of the procedures for storing the fish in the fish holds while the vessel is underway, commonly known as “refrigeration water” and the offloading of the fish in port, commonly known as “bail water.”

II. Applicable Law and Regulations

The Clean Water Act, 33 U.S.C. §§ 1311(a) and 1319(c)(2)(A), prohibits the discharge of pollutants, such as bail water, from a point source into waters of the United States without a permit. A vessel is a point source when it is in the territorial sea.

The Clean Water Act, 33 U.S.C. §§ 1321(b)(3) and 1319(c)(2)(A), also makes it a crime to knowingly discharge and cause the discharge of a harmful quantity of oil into a water of the United States.

The Act to Prevent Pollution from Ships (“APPS”), 33 U.S.C. § 1901 *et seq.*, implements the International Convention for the Prevention of Pollution from Ships, 1973, and its Protocol of 1978, commonly referred to as MARPOL. MARPOL is the main international convention covering the prevention of pollution of the marine environment by ships from operational or accidental causes. Among other things, MARPOL requires that discharges of machinery space bilge water pass through pollution prevention equipment that separates the oil from the water and monitors the discharge of bilge water to ensure that the effluent does not exceed 15 parts per million of oil. The United States has extended MARPOL requirements to domestic vessels through APPS and its implementing regulations. Under these regulations, a non-tank vessel, such as a fishing vessel, of more than 400 gross tons that fishes outside 12 nautical miles from

the baseline must have an oily water separator (“OWS”) with an oil content monitor (“OCM”) installed and must maintain a record of certain engine room operations, including overboard discharges of bilge water that has accumulated in machinery space bilges, in an Oil Record Book. 33 C.F.R. § 151.25(d)(4). The entries are to be signed by the person in charge of the operation and each completed page must be signed by the vessel’s master. *Id.* § 151.25(h). The U.S. Coast Guard may review the Oil Record Book during inspections to determine compliance with U.S. law.

The Alternative Fines Act, 18 U.S.C. § 3571(d), provides for an alternative fine based on the pecuniary gain from the offense. The parties stipulate that OMEGA PROTEIN’s pecuniary gain from the offenses charged in the Criminal Information exceeded \$2,750,000.00.

III. Clean Water Act Violations

1. Upon returning to port and completing their fishing activities, the OMEGA PROTEIN fishing vessels used fresh water to “bail” the fish from the fishing vessels and into the processing plant at Reedville. This water, commonly referred to as “bail water” would often contain fish wastes, such as scales, fins and excrement. The bail water was also used to convey the fish through the entire processing operation in the plant. As the bail water entered the processing plant and circulated through the fish processing operations, the bail water was combined with pollutants generated by the processing operations, as well as a caustic substance used for cleaning processing equipment. Once the combined bail and processing water became too thick to convey fish off the vessels and through the process, it was stored until it could be loaded onto vessels for off-shore discharge. Two Reedville-based OMEGA PROTEIN vessels, the GULF ISLAND and the G.P. KIMBERLY, were used to transport and dispose of the combined bail and processing water off shore. The vessels, which were known as water boats,

were required, consistent with the “fish waste” exclusion contained in the Marine Protection, Research and Sanctuaries Act, 33 U.S.C. § 1401, *et seq.*, to discharge fish waste beyond three nautical miles from the baseline from which the territorial sea is measured. During heavy fishing times, OMEGA PROTEIN fishing vessels also would be used to transport the combined bail and processing water for off shore discharge.

From May 2008 through December 2010, the water boats routinely failed to go beyond the three nautical miles as required before discharging the combined bail and processing water. During this same time period, the fishing vessels routinely discharged the combined bail and processing water into the waters of the United States, which is prohibited by the Clean Water Act.

2. Between on or about February 9 and 11, 2011, Coast Guard Station Portsmouth, Virginia, boarded seven of OMEGA PROTEIN’s fishing vessels and determined that the vessels over 400 gross tons did not have operable OWSs and OCMs as required by APPS. The Coast Guard inspectors observed oily mixtures in the machinery space bilges of the vessels and determined that bilge pumps aboard the vessels had been aligned in a manner that would allow the possible discharge of oily water into the sea. Upon the Coast Guard’s request, the crew members of the Reedville vessels, including the F/V JOHN S. DEMPSTER, JR. and the F/V SMITH ISLAND, all of whom were employees of OMEGA PROTEIN, were not able to produce Oil Record Books for any time period, including for the period from April 2009 through September 2010, for any of the fishing vessels that contained the required entries for engine room operations, including the discharge overboard of bilge water that had accumulated in machinery spaces.
